It is a federal grant that is being issued by the state to municipalities that has occurred expenses to money not budgeted for the extra supplies needed and some expenditures accrued by COVID-19. Jen Meyer has registered to receive the money and any questions can be asked to her and she can get a response. The company handling the grants is Ohio Business Management, we will receive \$71,000 and will be able to gift the rest of the money to businesses that lost money due to COVID, any money left over from the grant not gifted will be sent back to the state. Small businesses in Greenwich and Greenwich Improvement group will be able to benefit and since the amount is under \$750,000 no audit is required. March 1st was the start date of the pandemic.

Chief's Report: Chief Dorsey states that the mini festival didn't have that many problems, fireworks were fine. People were setting off fireworks at their home before the fireman's display started, there were some marijuana smokers at the ball field and a disturbance at the bar. Chief was asked about the radar equipment, he states there are 2 working radar detectors working and 2 are down and he is sending them off to be repaired but no one is really working on them anymore due to better equipment being available. The radar equipment in the cars can be stationary and hand held as well. New radar equipment is anywhere from \$750.00 to \$1,500.00. Masks are being worn by police officers if they are going into homes, he is trying to reducing the officers from going into homes if not necessary. The masks cannot be forced onto people to be worn, but is a health department violation.
